DETAILED ACTION

Reissue Applications

The amendment to the claims filed on April 11, 2005 does not comply with the requirements of 37 CFR 1.121(c) because subject matter being added to a new claim requires rewriting (and underling) of the entire new claim. 37 CFR 1,173 (b)(2) and (d).

Any changes to the text of claim (original or new) must be presented as an entire numbered claim. All subject matter being added to an original patent claim must be underlined. All subject matter being deleted from an original patent claim must be placed between brackets. 37 CFR 1,173 (b)(2) and (d). Subject matter being added to a new claim requires rewriting (and underling) of the entire new claim.

Each amendment submission must set forth the status of all patent claims and of all added claims (i.e. "pending" or "cancel") as of the date of the amendment. 37 CFR 1,173(c). The status of the claims should be in the "Remarks" section. The status of all of the claim should not be in the amendment to the claims.

1. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following: The applicant has amended the claims, therefor a new oath/declaration must be submitted.

2. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-18 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR

1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."
